Major Changes

As I finished the previous pipeline, I'm moving on to the next topic.

What I have accomplished so far

I have built the pipeline for a framework, and we conducted experiments and published a podium paper. I'm currently doing literature review for the next topic.

Meeting my milestone

I have met my milestone as we successfully published the podium paper.

Surprises

No major surprises; I'm still working on applying machine learning algorithms to medical data.

Looking Ahead

I plan to study about Hilbert-Huang Transformation and its applications. I'm also doing a literature review for our next paper on the previous topic I worked on.

Revisions to my milestones

There are no revisions to my milestones.

Resources needed

I have all the resources that I need.
